

Credit By Examination (CBE) For Acceleration
Without Prior Instruction in the Course/Grade Level

State Board of Education rules require school districts to offer Credit by Examination for Acceleration to students who wish to test for advancement to the next grade level or receive credit for a high school course for which he or she has had no prior instruction. Pleasant Grove Independent School District will offer examinations for acceleration for current kindergarten through twelfth grade during the dates listed below.

To receive credit for acceleration, a student must score 80% or above on each individual examination. Upon meeting the test requirements, a student may advance one grade level or receive credit for a high school course for the 2024-2025 school year. The acceleration exams are very challenging for students as the tests cover all of the required Texas Essential Knowledge and Skills (TEKS) for the course. Prior to requesting this strenuous testing process, please discuss other instructional options with your child's school counselor or campus administrator.

In accordance with Pleasant Grove ISD Policy and Texas Education Law, students must meet the criteria below to be eligible to take a Credit by Exam for Acceleration. Credit by Exam is only available to currently enrolled PGISD students.
